

Christine Lowe – Audio Describer & Voice Actor

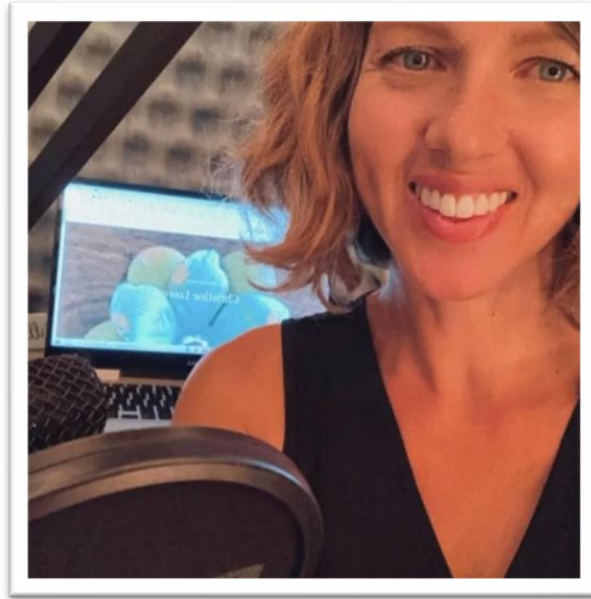

Photo Description

In a color photograph, a middle-aged American woman of Irish family origins, Christine Lowe, appears from the chest up to roughly her eyebrows. Christine's wavy, chin-length, light brown hair frames her blue eyes and light-tan skin. Christine sits in her voice recording studio, behind her microphone, and in front of her computer monitor displaying a blue and green flower with a sparkle in its center. Soft, light-blue acoustic foam surrounds her. She looks directly into the camera, wears a sleeveless, black v-neck top, and expresses a bright, friendly smile between two deep dimples.

Bio

Christine is a professionally trained voiceover artist and audio describer working out of her home studio in Ellicott City, Maryland. Growing up in Harrisburg, Pennsylvania, her fascination with acting began with pure fun and laughter, creating comical skits and music videos with her siblings and friends. After graduating from The University of Notre Dame and The Johns Hopkins University and fast-forwarding a few years, she is now a proud wife and mom who has devoted her life to loving and caring for her family, serving her community, improving the environment, and increasing accessibility. With valuable skills of clear, authentic communication and efficient, organized problem-solving, as well as an appreciation for incorporating a sense of humor into all things, she brings dedication, care and delight to her voice acting and audio describing, reliably giving the best of herself to represent her clients in the best light.
